SAN FRANCISQUITO CREEK
JOINT POWERS AUTHORITY

Please join the San Francisquito Creek Joint Powers Authority (SFCJPA) at a public workshop on the evening of July 21st at the East Palo Alto City Council chambers to review preliminary design plans for the “SF Bay to Highway 101” project. This project will greatly increase local flood protection for the East Palo Alto and Palo Alto communities on the bay side of Highway 101. It will also set the stage for future upstream flood control solutions and provide significant environmental benefits and improved public access and recreational opportunities. SFCJPA staff and technical specialists will present project details, share maps and visuals, answer questions, and take your input.
