

San Francisquito Creek Joint Powers Authority

February 29, 2024 Winter Storm Update and RFP Announcement

Mitigating Flood Risks. Protecting a Shared Natural Treasure.

Storm Updates

What we're watching -

- The National Weather Service has predicted ~ 1 inch of rain in the mid-Peninsula from the storm system moving through the region over the next 2 - 4 days. We will continue to monitor for any forecast changes, but do not anticipate any chance of flooding at this time.

What we've heard -

- The National Weather Service predicts heavy snowfall in the Sierra Nevada. Which is good news for future water supplies, but has no impact on the San Francisquito Creek watershed.

That this means for the Creek -

- San Francisquito Creek water level is expected to remain well below 'monitor' levels.

Other potential storm impacts -

- Gusty winds are possible with any winter storm system. Winds have the potential to cause power outages and tree damage.

What we're doing -

- Together with our City and agency colleagues, we continue to monitor storm and creek conditions throughout winter storm events. Cities have staged materials and equipment, and continue to have contactors and staff on standby in case they are needed.

What you can do -

- Be prepared for power outages. Keep an eye on your neighborhood storm drains and help keep them open by clearing any leaves or debris that may clog them.
- Use caution when driving in winter conditions.

Reporting Trouble

If you need to report storm-related trouble (creek or tidal flooding, clogged storm drains, fallen trees, or other storm-related hazards)

In Palo Alto –

<https://www.cityofpaloalto.org/News-Articles/City-Manager/ST...>

<https://www.cityofpaloalto.org/Residents/Services/Report-an-Issue>

(Palo Alto 311)

In Menlo Park – <https://menlopark.gov/Government/Departments/Police/Emergency-preparedness/Hazards-and-emergencies/Storms-and-flooding> (650)330-6300

In East Palo Alto - <https://www.ci.east-palo-alto.ca.us/publicworks/page/flood-protection-disaster-preparation> (650)321-1112

If you live in an unincorporated area along the creek or are not sure, please ask us at <https://www.sfcjpa.org/connectwithus>

REACH 2 - Upstream REQUEST FOR PROPOSALS

The SFCJPA has released a Request for Proposals (RFP) for a Master Services Agreement to support the Reach 2 project.

Details can be found on the SFCJPA website on the page "Do Business With Us" at: <https://www.sfcjpa.org/do-business-with-us>

We have included you in our distribution because you have participated in one or more of our community meetings, your organization or community members may be impacted by the work of the SFCJPA, or you are directly involved in the SFCJPA's projects.

We do not share your contact information with anyone!

Please feel welcome to forward to anyone we may have missed.
